SUMMARY

Passion for creating beautiful experiences, I pledge to be a self-driven lifelong learner. Looking to learn how to make ideas scale through web based solutions while maintaining great aesthetics for the UI. Working on building a sustainable lifestyle that gets me up determined every morning.

SKILLS

Git, UI/UX, UI Design Systems, Responsive Design, REST API, Async Programming, SQL/NoSQL Databases.

React, Next.js, Axios, Styled Components, Spring, Spring Data, Oracle DB, MySQL, MongoDB.

JavaScript ES6, TypeScript, SQL, HTML/CSS & SASS.

EXPERIENCE

Software Engineer Intern

ESPRIT Enterprise

July 2022 - September 2022, Tunis, Tunisia

- Worked as a Software Engineer, where I partnered to create a micro-frontend for EspritOnline, used by Instructors and School Administration.
- Assigned to make a visual annual activity report for instructors mainly used by the administration, to quantify each instructor's work activities.
- Facilitated, collaborated, and conversation designed with 1 other intern during initial planning that was supervised by the CIO of ESPRIT.
- Used Spring Boot to create the backend/server for applications to connect to an Oracle DB instance.
- Built a Single Page Application using React.js.

PROJECTS

Hobby Project: Landing Page for fake chat generator (In-Progress)

September 2022 - Present

to-copy.vercel.app

- Pre-rendering pages using Static Generation without fetching data.
- App scored above 90+ in very performance test, using Lighthouse.
- Tools: Next.js, React.js, SASS.

Instructors Annual Activity Report

ESPRIT Enterprise • August 2022 - September 2022

- Project Scope: A visual annual activity report for instructors mainly used by the administration.
- Architected and Built a RESTful Web Service with Spring as backend.
- Designed the Front-end using React and Data Fetching services with Axios.
- Implemented React Select and React Recharts to facilitate Data Visualization.
- Tools: React.js, Axios, React Select, React Recharts, Spring, Spring Data JDBC, Oracle DB, Oracle SQL Developer.

Hobby Project: Social Media Fake Chat Generator

June 2022 - August 2022

social-media-chat-generator.vercel.app

- Project scope: Tool for digital marketers, creating social proof.
- Managed state of forms without using a 3rd party library like Formik or Material UI.
- Tools: ReactJS, Styled-components, use-react-screenshot.

Personal Portfolio

May 2022 - June 2022

HaythemLaz.tech

- Designed 2022 portfolio as 4th iteration.
- Scored above 90+ in every performance test, using Lighthouse.
- Tools: JavaScript, HTML, SASS/CSS, Vercel.

EDUCATION

Computer Science Engineering

Ecole Supérieure Privée D'Ingénierie Et De Technologies, ESPRIT • Tunis, Tunisia • 2024

Preparatory School For Engineering Studies

Minor in Maths & Physics • Military Academy of Fondouk Jdid • Nabeul, Tunisia • 2021

Baccalaureate in Mathematics

Lycee Ibn Sina • Tunis, Tunisia • 2018
